Jeff G 5.0 out of 5 stars Read a few of the lame reviews about the lens ring, glad I ignored. Camera was great price and great qualityEverything works as advertised. The camera body feels a little light compared to more expensive cannons that we own but its a great starter set. I would definitely recommend for beginners.Im very happy.I bought this based on the few great reviews. Overall the camera is very basic and has a very cheap feel. Please do research and shop around first before making a purchase. The tripod is a table tripod, very little and cheap. The flash also very cheap. It comes with the one lense. To be honest my pictures with my iPhone Xpro turn out nicer than the pics I took with this. Sending it back!The photos are beautiful and it gave me full detail of the imagen. Excellent color, light, contrast. Excellent camera. Also is easy to use. Very easy. I am very happy of buy it.I am truly enjoying every moment. You have brought my love back for photography.Also, it only saves in JPEG, like wtf that is so old. No way to save in png. Even modern point and shoot cameras have all sorts of formats to choose from. This is a case of you get what you pay for.

If youre really serious about taking beautiful pictures, you should spend more money and go for the pricier cameras. Maybe dont even get the cannon brand.I would have like better Instructions. Im starting to wonder what I got myself into. The other thing is I thought it would zoom in more than what it does, I hope Lens are not going to be a problem with this unit, My husband Races and I take the picture for this event.Page 1 of 1 Start over Page 1 of 1 In order to navigate out of this carousel please use your heading shortcut key to navigate to the next or previous heading.
